If that is your primary aim, you must goal to keep your worth on the low side. Some authors have even priced their ebooks at a profit loss to attract a excessive variety of new customers. The key is to find a price that maximizes your profits and the number of books you sell.

This is an excellent pricing technique if you are seeking to acquire long-time period customers. Lengthy-term customers are extremely seemingly to buy from you once more and again ? as long as the first e-book they buy is of distinctive quality and helpful to the customer.

However, in case your ebook accommodates helpful ? and more importantly NEW information, references, or methods ? then it's best to goal to price it on the high end.

After you determine your aim, you must figure out what your audience's need is on your ebook. For instance, does your guide clear up a specific problem? If you wish to see massive profits over customer draw, aim for an audience that is on the lookout for simple options to their problems at a low price. In case your guide is geared toward fixing one specific downside moderately than common recommendation, then you'll be able to cost more. Start at the highest worth the market will bear to herald the largest earnings, and plan to low cost the book a variety of times all through the year.
