Besides selling your books assiduously online, there are several other strategies that may enable you sell extra books.

One is to give one thing away without cost together with your ebook, corresponding to a beneficial bonus item. Or bundle several ebooks beneath one price, which lowers the worth for each e book if they were offered separately.

An effective approach for determining a worth is to send out a survey to your present customers. If these prospects have already bought an ebook from you, ask for their opinion when it comes to price. Do this by creating a gross sales web page for the brand new e book, but do not embrace a value on that page. Instead, add quite a lot of hyperlinks to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other strategy is to check out costs by creating a variety of duplicate gross sales pages with completely different costs on each page. Ensure that your gross sales copy is strictly the same on

every page, and consists of your promoting-handle sentence. Then figure out for every page the conversion ratio between guests to your site and sales of your book. It will tell you what your optimum price is.

Finally, when you've written a ebook that solves a downside or presents a brand new approach, your ebook will bring in both traffic and profits. So make sure you write that selling-deal with sentence that sums up what drawback your e-book solves and what the advantages of your 550 e-book shall be to the purchasers who purchase it. And then watch your market come to you!
