An efficient method for figuring out a worth is to send out a survey to your current customers. If these customers have already purchased an e-book from you, ask for their opinion in terms of price. Do this by making a gross sales web page for the new book, but don't embrace a value on that page. As an alternative, add a variety of hyperlinks to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

Another technique is to test out costs by making a number of duplicate sales pages with completely different costs on each page. Be sure your sales copy is strictly the similar on each web page, and contains your selling-handle sentence. Then work out for every web page the conversion ratio between guests to your website and sales of your book. It will tell you what your optimum worth is.

In the end, if you happen to've written a e book that solves a problem or presents a brand new method, your book will usher in both traffic and profits.
